

Quantum Global Technologies, LLC Press Release

QuantumClean® and ChemTrace® to exhibit at SEMICON West 2015

The only global provider of validated Atomically Clean Surfaces™ outsourced process tool parts cleaning, performance coatings, refurbishment, and analytical laboratory & engineering services for sub-20nm manufacturing processes to exhibit at SEMICON West 2015 tradeshow.

Quakertown, PA, USA. July 6, 2015 -- [QuantumClean](#) and [ChemTrace](#) today announced that they will be exhibiting at the SEMICON West 2015 tradeshow, held at the Moscone Center in San Francisco, California from July 14th through July 16th, 2015.

SEMICON West features the people, products and technologies advancing the future of microelectronics. QuantumClean and ChemTrace will be exhibiting at booth number 928 in the South Hall.

This year at SEMICON West, QuantumClean's Senior Director of Innovation and Technology, Dr. Ardeshir Sidhwa will be presenting at the Semiconductor Technology Symposium on Tuesday, July 14th at Moscone North, Hall E, Room 131, at 11:20 am. Dr. Sidhwa will be presenting "[Implementation of Final Surface Finish™ \(FSF™\) by Using Cost-Effective Atomically Clean Surface \(ACS™\) Process for Sub-14 nm Technology Nodes](#)". We invite interested parties to attend Dr. Sidhwa's presentation.

QuantumClean is leading its industry in parts cleaning innovation that brings value to its customers. Our technical and commercial teams will be present at the booth throughout the show and welcome the opportunity to discuss solutions to your current and future parts cleaning and coating challenges, and refurbishment requirements.

ChemTrace provides state-of-the-art analytical services and problem solving expertise to improve current technologies in semiconductor and solar industries. ChemTrace believes in building a close working relationship with customers to understand their needs and provide solutions to meet their objectives.

About Quantum Global Technologies, LLC

QuantumClean and ChemTrace are divisions of Quantum Global Technologies LLC, which is headquartered in suburban Philadelphia, Pennsylvania, USA.

QuantumClean is the global leader in sub-20nm outsourced process tool parts cleaning, coating and restoration services to the semiconductor wafer fabrication, OEM & OPM industries. Founded in 2000, QuantumClean operates technologically innovative *Advanced Technology Cleaning Centers*® built on the premise of providing customers *process improvement through*

consistently cleaner parts[®] that exceed industry standards, dramatically reducing our customers' total cost of ownership. With nineteen *Advanced Technology Cleaning Centers*[®] located in nine countries, QuantumClean provides unsurpassed cleaning capability and convenience worldwide.

ChemTrace is a recognized leading reference analytical testing laboratory primarily serving the semiconductor, solar and related industries by providing answers and solutions to its customers' micro-contamination related issues. Founded in 1993, ChemTrace also provides independent analytical verification of process tool part cleaning effectiveness for QuantumClean and leading-edge semiconductor fab, OEM and OPM customers which have critical cleanliness requirements.
