

Quantum Global Technologies, LLC Press Release

QuantumClean® & ChemTrace® To Exhibit at SEMICON Taiwan 2015

Leading global provider of validated high-purity outsourced process tool parts cleaning, performance coatings, refurbishment and analytical & engineering services, and leading reference microcontamination analytical laboratory to the semiconductor industry to exhibit at SEMICON Taiwan 2015 tradeshow.

Quakertown, PA, USA. August 19, 2015 – QuantumClean and **ChemTrace** are pleased to announce that they will exhibit at the SEMICON Taiwan 2015 tradeshow being held at the TWTC Nangang Exhibition Hall in Taipei, Taiwan from September 2-4, 2015. QuantumClean will be exhibiting at booth #2235 and ChemTrace will be exhibiting at booth #2031 in Hall 1F.

“Taiwan continues to be one of the fastest growing semiconductor fabrication marketplaces worldwide with Taiwan fabs investing over \$10 billion USD in each of the past 3 years” said Scott Nicholas, President & CEO of Quantum Global Technologies. “QuantumClean and ChemTrace have likewise invested in Taiwan, expanding both capability and capacity to support Taiwan’s increasingly challenging semiconductor fab processes,” concluded Mr. Nicholas.

QuantumClean operates on the frontier of the sub-20nm high-purity semiconductor parts decontamination through leading-edge technologies, resources and expertise, producing *Atomically Clean Surface™* process chamber parts.

ChemTrace has developed new techniques for trace metals analysis of precursors and thin films for 20nm and beyond. Stop by to find out how *Solution Based Chemistry™* can help improve your manufacturing process.

QuantumClean’s and ChemTrace’s technical, commercial and management teams will be present at the booths throughout the show and welcome the opportunity to discuss solutions to your current and future parts cleaning/refurbishment challenges and analytical requirements.

About *Quantum Global Technologies, LLC*

QuantumClean and ChemTrace are divisions of Quantum Global Technologies LLC, which is headquartered in suburban Philadelphia, Pennsylvania, USA.

QuantumClean is the global leader in sub-20nm outsourced process tool parts cleaning, coating and restoration services, tool part life extension and process tool part optimization solutions to

the semiconductor wafer fabrication, OEM & OPM industries. Founded in 2000, QuantumClean operates technologically innovative *Advanced Technology Cleaning Centers*® built on the premise of providing customers *process improvement through consistently cleaner parts*® that exceed industry standards, dramatically reducing our customers' total cost of ownership. With nineteen *Advanced Technology Cleaning Centers* located in nine countries, including Taiwan, QuantumClean provides unsurpassed cleaning capability and convenience worldwide.

ChemTrace is a recognized leading reference analytical testing laboratory primarily serving the semiconductor, solar and related industries by providing answers and solutions to its customers' microcontamination related issues. Founded in 1993, ChemTrace also provides independent analytical verification of process tool part cleaning effectiveness for leading-edge semiconductor fab, OEM and OPM customers which have critical cleaning requirements.
