

A Quantum Global Technologies, LLC PRESS RELEASE

QuantumClean® and ChemTrace® to Exhibit at SEMICON Taiwan 2016

Leading global provider of validated ultra-high purity outsourced process tool chamber parts cleaning, performance coatings, and refurbishment, and leading reference microcontamination analytical laboratory to the semiconductor industry to exhibit at SEMICON Taiwan 2016.

Quakertown, PA, USA. September 2, 2016 – Innovation and Technology Leaders QuantumClean® and ChemTrace® will be exhibiting at SEMICON Taiwan 2016 tradeshow from September 7 through September 9, 2016 at the Taipei Nangang Exhibition Center in Taipei, Taiwan.

QuantumClean® and ChemTrace® are at the forefront of ultra-high purity chamber parts cleaning, performance coatings and analytical solutions to the semiconductor wafer fabrication and OEM industries.

As nodes scale down and semiconductor device manufacturing becomes increasingly complex, QuantumClean® and ChemTrace® stay one step ahead of our customer's needs, providing advanced technology solutions to the most stringent defectivity requirements.

QuantumClean will be exhibiting in hall 1F, booth #2530. ChemTrace will be exhibiting in hall 3F, booth #247. Come visit QuantumClean® and ChemTrace® at SEMICON Taiwan to learn more on how our service offerings can bring improvement to your critical process chamber manufacturing challenges.

About Quantum Global Technologies, LLC

QuantumClean® and ChemTrace® are divisions of Quantum Global Technologies, LLC which is headquartered in suburban Philadelphia, Pennsylvania, USA.

QuantumClean® is the global leader in sub-14nm outsourced process tool parts cleaning, performance coatings, tool part life extension and process tool part optimization solutions to the semiconductor wafer fabrication, OEM & OPM industries.

Founded in 2000, QuantumClean® operates innovative *Advanced Technology Cleaning Centers®* built on the premise of providing customers *process improvement through consistently cleaner parts®* that exceed industry standards. These solutions dramatically reduce our customers' total

cost-of-ownership. With 18 *Advanced Technology Cleaning Centers* located in 8 countries, QuantumClean® provides unsurpassed cleaning capability worldwide.

ChemTrace® is a globally recognized leader of microcontamination analytical testing. Founded in 1993, ChemTrace® provides state-of-the-art analytical services and problem solving expertise to improve current technologies in semiconductor, solar and photonics manufacturing. ChemTrace® is expert in microcontamination analysis in the fields of trace metals, particles, anions, cations, organics and particles. The ChemTrace® comprehensive analysis portfolio covers testing of critical materials and processes such as water, chemicals, wafers and wafer depositions, tool components, airborne molecular contamination, cleanroom construction materials and cleanroom consumables.
