

Quantum Global Technologies, LLC Press Release

QuantumClean[®] and ChemTrace[®] to exhibit at SEMICON West 2012

Leading provider of outsourced parts cleaning and refurbishment to the semiconductor industry and leading reference analytical laboratory exhibits at SEMICON West 2012 tradeshow.

Dublin, PA, USA. June 18, 2012 -- **QuantumClean[®]**, the leading global provider of high purity outsourced parts cleaning and refurbishment to the semiconductor industry, and **ChemTrace[®]**, a recognized leading reference analytical testing laboratory, today announced that they will be exhibiting at the SEMICON West 2012 tradeshow, held at the Moscone Center in San Francisco from July 10th through the 12th.

SEMICON West highlights the companies, technologies and people driving the future of micro and nanoelectronics design and manufacturing. Both **QuantumClean[®]** and **ChemTrace[®]** will be located in the South Hall at the Moscone Center at booth numbers 610 and 2211, respectively.

In the past year, **QuantumClean** and **ChemTrace** have successfully introduced the technology required to effectively clean and analyze parts at sub-30 nm nodes for its leading-edge wafer fab and OEM customers. Further the company's R&D groups are currently developing the technologies and techniques required to meet cleaning and analytical requirements at 22 nm, 14 nm and beyond.

QuantumClean's and **ChemTrace's** engineers, chemists, sales team, and management will be present at the booth throughout the show and welcome the opportunity to discuss our solutions to your current and future parts cleaning/refurbishment challenges and analytical requirements.

About Quantum Global Technologies, LLC

QuantumClean[®] and **ChemTrace[®]** are divisions of Quantum Global Technologies LLC, which is headquartered in suburban Philadelphia, PA, USA.

QuantumClean[®] is the leading global provider of high-purity outsourced process tool parts cleaning and restoration services, tool part life extension and process tool part optimization solutions to the semiconductor wafer fabrication, OEM & OPM industries. Founded in 2000, **QuantumClean[®]** operates technologically innovative Advanced Technology Cleaning Centers[®] built on the premise of providing customers process improvement through consistently and verifiably

cleaner parts[®] that exceed industry standards, dramatically reducing customers' total cost of ownership. With fourteen Cleaning Centers located in seven countries, QuantumClean provides unsurpassed cleaning capability and convenience.

ChemTrace[®] is a recognized leading reference analytical testing laboratory primarily serving the semiconductor, solar and related industries by providing answers and solutions to its customers' micro-contamination related issues. Founded in 1993, **ChemTrace**[®] also provides independent analytical verification of process tool part cleaning effectiveness for many of **QuantumClean's** leading-edge semiconductor fab, OEM and OPM customers with critical cleaning requirements.
