

Quantum Global Technologies, LLC Press Release

QuantumClean® and ChemTrace® to exhibit at SEMICON Taiwan 2014

Leading global provider of validated high-purity outsourced process tool parts cleaning, performance coatings, refurbishment, and analytical & engineering services, and leading reference microcontamination analytical laboratory to the semiconductor industry exhibit at SEMICON Taiwan 2014 tradeshow.

Quakertown, PA, USA. August 21, 2014 -- **QuantumClean®** and **ChemTrace®** today announced that they will be exhibiting at the SEMICON Taiwan tradeshow, held at the Taiwan World Trade Center in Taipei, Taiwan from September 3rd through the 5th, 2014.

SEMICON Taiwan features the people, products and technologies advancing the future of microelectronics. **QuantumClean®** and **ChemTrace®** will be exhibiting jointly, in Nangang Hall at booth number 1141.

QuantumClean® operates on the frontier of the sub-20nm high-purity semiconductor parts cleaning market through leading-edge technologies, resources and expertise. For example, earlier this year QuantumClean® announced that it was the first semiconductor industry outsourced process tool parts cleaner to join [SEMATECH](#), as well as the first to earn certification in the [EICC's](#) Conflict-Free Smelter Program for Tantalum.

ChemTrace® has developed new techniques for trace metals analysis of precursors and thin films for 20nm and beyond. Stop by to find out how *Solution Based Chemistry™* can help improve your manufacturing process.

QuantumClean's and **ChemTrace's** technical, commercial and management teams will be present at the booths throughout the show and welcome the opportunity to discuss solutions to your current and future parts cleaning/refurbishment challenges and analytical requirements.

About Quantum Global Technologies, LLC

QuantumClean® and **ChemTrace®** are divisions of Quantum Global Technologies LLC, which is headquartered in suburban Philadelphia, Pennsylvania, USA.

QuantumClean® is the leading global provider of high-purity outsourced process tool parts cleaning and restoration (coating) services, tool part life extension and process tool part optimization solutions to the semiconductor wafer fabrication, OEM & OPM industries. Founded in 2000, **QuantumClean®** operates technologically innovative *Advanced Technology Cleaning Centers®* built on the premise of providing customers *process improvement through*

consistently cleaner parts[®] that exceed industry standards, dramatically reducing our customers' total cost of ownership. With nineteen *Advanced Technology Cleaning Centers*[®] located in nine countries, [QuantumClean](http://www.quantumclean.com)[®] provides unsurpassed cleaning capability and convenience worldwide.

ChemTrace[®] is a recognized leading reference analytical testing laboratory primarily serving the semiconductor, solar and related industries by providing answers and solutions to its customers' micro-contamination related issues. Founded in 1993, **ChemTrace**[®] also provides independent analytical verification of process tool part cleaning effectiveness for many of QuantumClean's leading-edge semiconductor fab, OEM and OPM customers which have critical cleaning requirements.
