

Quantum Global Technologies, LLC Press Release

QuantumClean® to exhibit at SEMICON Europa 2014

Leading global provider of validated Atomically Clean Surfaces™ outsourced process tool parts cleaning, performance coatings, refurbishment, and analytical & engineering services for sub-20nm manufacturing processes to exhibit at SEMICON Europa 2014 tradeshow.

Quakertown, PA, USA. September 23, 2014 -- **QuantumClean®** today announced that it will be exhibiting at the SEMICON Europa tradeshow, held at the Alpexpo in Grenoble, France from October 7th through the 9th, 2014.

SEMICON Europa features the people, products and technologies advancing the future of microelectronics. QuantumClean® will be located at booth number 507.

QuantumClean® is leading its industry in innovation that brings value to its customers. For example, earlier this year QuantumClean® announced that it was the first semiconductor industry outsourced process tool parts cleaner to join [SEMATECH](#), as well as the first to earn certification in the Electronic Industry Citizenship Coalition's ([EICC](#)) Conflict-Free Smelter Program for Tantalum.

QuantumClean's technical, commercial and management teams will be present at the booth throughout the show and welcome the opportunity to discuss solutions to your current and future parts cleaning/refurbishment challenges and analytical requirements.

About Quantum Global Technologies, LLC

QuantumClean® and ChemTrace® are divisions of Quantum Global Technologies LLC, which is headquartered in suburban Philadelphia, Pennsylvania, USA.

QuantumClean® is the global leader in sub-20nm outsourced process tool parts cleaning and restoration (coating) services, tool part life extension and process tool part optimization solutions to the semiconductor wafer fabrication, OEM & OPM industries. Founded in 2000, QuantumClean operates technologically innovative *Advanced Technology Cleaning Centers®* built on the premise of providing customers *process improvement through consistently cleaner parts®* that exceed industry standards, dramatically reducing our customers' total cost of ownership. With nineteen *Advanced Technology Cleaning Centers®* located in nine countries, QuantumClean provides unsurpassed cleaning capability and convenience worldwide.

ChemTrace® is a recognized leading reference analytical testing laboratory primarily serving the semiconductor, solar and related industries by providing answers and solutions to its customers' micro-contamination related issues. Founded in 1993, ChemTrace® also provides

independent analytical verification of process tool part cleaning effectiveness for many of QuantumClean's leading-edge semiconductor fab, OEM and OPM customers which have critical cleaning requirements.
